Phaser 7750
Tabloid Color Printer

The full-spectrum printer for design and business.

There's little room for compromise if you rely on color to communicate ideas and solidify concepts. It's got to be spot on every time you print, and you don't have all day to deliver. The Phaser 7750 color laser printer has the complete feature set for professional design: fast performance to keep pace, fully controllable and customizable color output, and intelligent features that help speed projects through to completion.

Bright colors at blazing speed.

The Phaser 7750 color laser printer sets the pace for tabloid laser printers. It powers through the most complicated, high-coverage print jobs with ease, and delivers impressive results, consistently. Bolstered by powerful system level components, the Phaser 7750 color laser printer won't make you late. It'll make you shine.

- 35 pages-per-minute — keeps productivity high.
- First-page-out time of less than 11 seconds and no long warm-up times.
- 715 MHz G4 PowerPC processor makes short work of complex, graphic-intensive layout files.
- Up to 1 GB of memory helps minimize print queues in production-oriented offices.
- Supports Tabloid, Tabloid Extra and Banner-sized paper.

Better color by design.

There's an impressive quality to Phaser 7750 prints. Colors pop, the images are sharp… and the colors are the exact ones you specify. New Emulsion Aggregation Higher Gloss toner uses smaller, more uniform toner "particles" to bring more detail and clarity to every image. Plus, the Phaser 7750 printer is fully loaded with software to ensure that what you expect to see is what you get.

- Glossy, vivid colors and rich, deep blacks.
- Resolution up to 1200 x 1200 dpi for lifelike, high-quality color output.
- Remarkably consistent output over the length of the print run.
- TekColor color correction is your visual guide to accurately simulating output colors of other devices, such as your computer screen or a printing press.
- Powerful PhaserMatch 3.0 and PhaserCal color management and calibration software help you maintain color accuracy from concept to final production — an essential tool for any graphic professional.

Phaser® 7750

Easy to work with.

A busy office or design shop needs to rely on its color printer, not babysit it. The Phaser 7750 color printer practically installs itself, and intelligent management features help it blend in nicely with brisk-paced businesses.

- Prints on a wide variety of media, from bond and glossy paper to card and cover stocks with excellent reliability.
- Driver installs with just four mouse clicks; you'll be printing in minutes.
- Front panel graphically displays remaining toner levels, so there are no surprises.
- PrintingScout and media size sensors and alerts help prevent unintended misprints.
- Up to five feeder trays support the full gamut of media for full production flexibility.
- Optional Finisher (standard in DXF configuration) adds stapling, collating and job offsetting features.

Phaser 7750GX

Always Productive

The Phaser 7750 color laser printer comes standard with a suite of software tools to aid productivity in today's complex office technology environments.

CentreWare IS Embedded Web Server provides easy printer management via your favorite web browser. Save time with configuration cloning and automatic installation, and access MaiLinX email alerts, consumables status, printer configurations, job accounting and automated support.

For enterprise-level printer management, server-based CentreWare Web makes it easy for IT administrators to install, configure, obtain reports and troubleshoot all Xerox and non-Xerox network devices simultaneously.

PrintingScout (instant pop-up Help), PhaserSMART (remote diagnostic tool), a full one-year on-site warranty and the Xerox Total Satisfaction Guarantee ensure that your printer will be on-line, all the time.

High performance from start to finish

If you print a lot of multi-page documents, you'll find the Phaser 7750DXF configuration tremendously useful. We've added a High-Capacity Feeder 1 to give you an additional universal tray and two letter-size trays for a total 3,150-sheet capacity. A Finisher 2 simplifies your on-demand workload by stapling sets of up to 50 sheets and offset-stacking them for easy pick-up and distribution.

The Phaser 7750DN configuration comes with automatic 2-sided printing and two versatile paper input trays: a 150-sheet multi-purpose Tray 1, 3 and a 500-sheet universal tray 4.

The Phaser 7750GX configuration adds a lower tray deck, containing three 500-sheet universal trays 5 6 7 for a total capacity of 2,150 sheets.
